PROFILE SUMMARY

Data Analyst with hands-on experience in SQL, Power BI, Excel, and Python, specializing in data cleaning, dashboarding, and predictive analysis. Proven ability to analyze large datasets, build automated reports, and deliver actionable business insights through real-world projects and internships. Strong foundation in data storytelling, KPI tracking, and stakeholder reporting, seeking an entry-level Data Analyst / BI Analyst role.

EDUCATION

B.TECH (AKTU) IN COMPUTER SCIENCE & ENGINEERING - AI | 2021 – 2025 | CGPA: 8.96

12TH (CBSE) | 2019 – 2020 | 88%

10TH (CBSE) | 2017 – 2018 | 95%

SKILLS

- Data Analysis: Data Cleaning, EDA, KPI Reporting, Statistical Analysis, Forecasting
- Tools & BI: Power BI, Tableau, Excel (Pivot Tables, VLOOKUP), Google Sheets
- Databases: SQL, MySQL
- Programming: Python (Pandas, NumPy, Matplotlib, Scikit-learn)
- Visualization: Dashboard Design, Report Automation, Data Storytelling
- Soft Skills: Analytical Thinking, Communication, Problem Solving, Collaboration

PROJECTS

- E-commerce Sales Forecasting** | Python, Tableau, XGBoost, Plotly
 - Analyzed and forecasted monthly sales trends using statistical techniques ($R^2 = 0.74$).
 - Built Tableau dashboards for revenue and product performance visualization.
 - Delivered insights that enhanced demand planning and marketing ROI decisions.
- Customer Churn Prediction** | Python, Pandas, Scikit-learn, Power BI
 - Queried and cleaned customer data (6K+ records) to identify churn drivers.
 - Developed classification models and created Power BI dashboards to visualize churn trends.
 - Provided data-driven recommendations that supported retention improvement initiatives.
- Consumer Behavior Dashboard** | Power BI, SQL, Excel
 - Designed interactive Power BI dashboards visualizing consumer engagement metrics.
 - Queried and validated customer transaction data using SQL for pattern discovery.
 - Delivered actionable insights that improved engagement rate by 18%.

WORK EXPERIENCE

Data Analytics Intern - CSRBOX | June 2024 – August 2024 | Virtual Internship

- Built Power BI dashboards to monitor project KPIs and operational performance.
- Cleaned, validated, and transformed large datasets to ensure accurate reporting.
- Conducted ad-hoc analysis to support cross-functional teams, improving process efficiency by 20%.
- Delivered insights through visual reports for data-driven decision-making.

CERTIFICATIONS

- Google Data Analytics – Coursera (2023)
- Data Science Internship – IBM (2024)
- AI Internship – IBM (2024)
- Data Analytics & Visualization – Accenture Forage (2025)
- Data Analytics Job Simulation – Tata Forage (2025)
- Basics of Java – Coding Ninjas (2024)
